## PORTFOLIO

### Merry-Money

[Live Site](#) | [Github](#)

*Stock research and trading app that emulates the UX of Robinhood*

- Leverages IEX API along with Recharts Gem to display dynamic realtime and historical price information
- Designed stock search feature that utilizes debouncing to limit the number of database queries
- Uses React to implement components that automatically re-render on change of state and Redux to sync UI components for a seamless user experience
- Protects user portfolio information through front and back end user authentication built with BCrypt gem

### Amazing Project

[Live Site](#) | [Github](#)

*This is a very short sentence about what your project does and the languages you used*

- Lorem ipsum dolor sit amet, consectetur adipiscing elit. Aenean commodo ligula eget dolor. Aenean massa. Cum sociis natoque penatibus et magnis dis parturient montes, nascetur ridiculus mus.
- Nulla consequat massa quis enim. Donec pede justo, fringilla vel, aliquet nec, vulputate eget, arcu. In enim justo, rhoncus ut, imperdiet a, venenatis vitae, justo.

## SKILLS AND TECHNOLOGIES

Rails, Ruby, React, Redux, JavaScript, SQL, CSS3, SASS, HTML5, Git, Postgresql, SQLite, jQuery, Heroku, RSpec

## EXPERIENCE

### Vestorly

*Director of Sales Operations*

Oct 2014 - Apr 2018

- Created reporting from the ground up for sales team performance, business KPI's, forecasting, and marketing optimization
- Managed sales team day to day and built sales operation and process including administration of Salesforce and implementation of sales technologies such as Outreach.io, Gong.io, Clari, Zoom, PandaDoc, Klipfolio, and Guru
- Strategized with senior management based on reporting analysis to expand and evaluate new markets, create hiring plan, and set revenue targets

### Product Manager

- Collaborated with engineering team to develop release process and procedure as the product matured and scaled
- Prioritized features and bug fixes through weekly release cycles
- Managed remote team of QA Engineers in India to ensure stable product

### Red Ventures

*Operations Analyst*

July 2012 - Sept 2014

- Operations analyst for The Energy Group (over 130 agents and 20 managers)
- Identified metrics and goals to evaluate new business launches, implemented strategies to improve results and guided growth through analysis and testing
- Analyzed agent and manager performance as well as marketing projections in order to create effective monthly compensation plans
- Formulated, implemented, and analyzed split testing in voice response systems to improve sales performance and overall profitability
